

Euronanomed III-JTC 2018

EURONANOMED III, 2018

Through Instituto de Salud Carlos III (ISCIII) as funding agency, the ERA-NET “European Innovative Research & Technological Development Project in Nanomedicine” (EuroNanoMed III) has launched the 9th. call for collaborative research projects in nanomedicine.

Purpose:

- To support translational research projects that combine innovative approaches in the field of nanomedicine.
- To enable transnational collaboration between public and private research groups from academia and clinical/public health research. The participation of Medical Doctors and SMEs is strongly encouraged.

Areas:

- Regenerative medicine
- Diagnostics
- Targeted delivery systems

Type of projects:

- Innovation applied research projects: Proof of concept projects for innovative applications with analytical/experimental research and/or implementation and integration of components and test in laboratory and/or animal models.
- Projects with high potential of applicability at short/medium term: Projects closer to the market for the validation of demonstrators and prototypes in a realistic laboratory (for TRL 5) and/or relevant simulated operational field environment (for TRL-6).

Characteristics of the application:

- Each application should include partners from at least two of the three categories of eligible entities.
- Each project partner will be represented by one (and only one) principal investigator.
- Only one proposal per partner is allowed. Multiple submissions are not allowed.

Eligible entities :

- 1 - Academia (research teams working in universities, other higher education institutions) or research institutes
- 2 - Clinical/public health sector (research teams working in hospitals/public health and/or other health care settings and health organisations).
- 3 - Enterprise (private companies of all sizes).

Additional eligibility criteria:

- Only one proposal per partner is allowed
- Researchers with ongoing EURONANOMED projects in 2019 cannot apply to the current call except if the applicant is the coordinator.
- Researchers affiliated to Vall d'Hebron Hospital can participate both as coordinator and partner. Researchers affiliated to VHIR can only participate as coordinator.

NOTE: Universities are excluded as eligible institutions by ISCIII. Their participation in the proposal is only allowed through CIBER or IIS or they should apply for funding to MINECO-AEI.

Eligible consortiums:

- A minimum of three eligible and a maximum of five eligible partners from at least three different countries.
- No more than two eligible partners from the same country participating in the call will be accepted in one consortium.
- No more than one research group with own funding can be included in a consortium.
- The maximum number of participants in a project consortium could be extended to seven (including eligible for funding and non-eligible for funding research groups).

Budget:

- Up to 150.000 € per partner (Overheads included)
- Up to 200.000 € per coordinator (Overheads included)

Timeline:

- Internal VHIR: 9 January 2018
- Submission deadline for pre-proposals: From 14th December 2017 to 16th January 2018.
- Deadline for full proposals: 30th May 2018
- Communication of the funding decisions: October 2018
